EDUCATION

BSC. OF COMPUTER SCIENCE

Kielce University of Technology

2020-2024

LANGUAGE

Polish - native

English - B2

I'm a React/Next developer at TDS Soft and a CS student at Kielce University of Technology. Passionate about creating dynamic, user-centric web apps with the latest tech. Committed to innovative solutions for modern businesses.

EXPERIENCE

REACT DEVELOPER

TDS SOFT

November 2022-Present

- Developed a service worker to incorporate W3C headers into API calls.
- Designed a custom hook for seamless user login and authentication.
- Employed D3.js for effective data visualization.
- Crafted and optimized GraphQL queries and mutations, streamlining backend data communication and updates.
- Implemented a dynamic table with pagination and search capabilities.
- Conducted unit tests to validate key features, ensuring reliability and robustness.

NEXT DEVELOPER

TDS SOFT

November 2022-Present

- Developed an authentication system using NextAuth and seamlessly integrated it with Firebase.
- Created and configured components within Storybook, enhancing modularity and reusability.
- Employed Jest and React Testing Library for comprehensive unit and integration testing.
- Utilized the capabilities of Next.js version 13 to efficiently structure the application's directory.
- Designed and implemented various views for ticket management and listing within the resell tickets platform project.

WEB PUBLISHER

Cheil Germany GmbH

May 2022 - March 2023

- Maintaining and updating websites (mostly iqos.com for the UK) using Adobe Experience Manager (AEM)
- Integrating SAP Hybris and Salesforce with AEM
- Creating and publishing digital content, including images, videos, and other multimedia assets
- Ensuring the accuracy and consistency of web content
